

## ***Michael Humpries, MCMHA Board Member***

***Appointed: April 2020***

### ***My reason for wanting to be a Board Member:***

As a long time Registered Nurse, I frequently see the effects of undertreated, ignored, and marginalized patients with mental health concerns. I want to see our communities direct necessary resources, effectively and efficiently, to ensure that those from our community needing the services this entity provides, actually receive the appropriate care required to give them the best opportunity to lead a independent and fulfilling life as possible. If my time and experience can help this agency achieve that goal, then I feel this will have been time well spent.
