

Sandy Libstorff, MCMHA Board Member

Appointed: September 2006

My reason for wanting to be a Board Member:

As a person with Bipolar Disorder and a parent of someone with Autism, I understand the difficulties in obtaining accessible quality and timely care. I have been an advocate for those with mental illness now for 28 years starting with the Association for Children's Mental Health when my son was a child. I want to be part of making sure that the people of Monroe County with mental illness have that high quality, timely care.

Current Employer, Occupation, Retired, or Hobby:

- Retired
- Currently a volunteer Nurse at Oaks of Righteousness Homeless Shelter and Sacred Oaks / Faithworks Health Center

Education:

- Associate's Degree in Nursing - Monroe County Community College 1975
- I worked 40 years at Mercy Memorial Hospital, now ProMedica, in the Obstetric Department before retiring six years ago
